e toni neutri l'ordito del tempo,
sfidando le mode e determinando
nuove e inaspettate tendenze,
si fonde con la sostanza concreta
e ineludibile della carta da parati che,
ricoprendo la parete, conduce
a una nuova esperienza dell'essere.**

antar-elena borghi

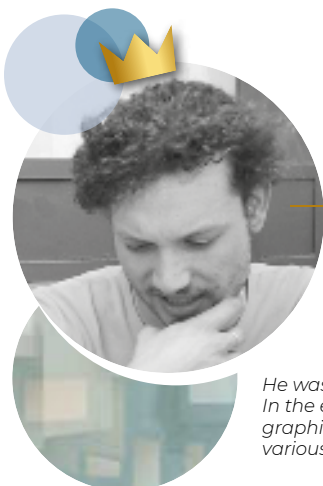

Creatrice di visioni, coltivatrice di parole dimenticate, braccia rubate all'agricoltura. Sin da piccola coltiva l'uso della parola e, appollaiata sul ramo di un albero nel giardino della nonna, passa le ore inventando storie e avventure. Grazie al teatro e all'opera lirica, a quindici anni comprende che da grande vuole fare la scenografa. Da allora progetta e realizza allestimenti per vetrine, fiere, eventi, interior design, pubblicità, shooting fotografici e qualunque spazio affamato di eteriche presenze.

Disegna su muri, su carta, su tessuto e su ogni superficie dove possa scorrere il suo tratto nero.

"Nel corso della mia carriera ho attraversato molti crinali: tra pellicola e digitale, tra narrazione e astrazione, tra ricerca e estetica. Viaggiatore e reporter, per molti anni ho girato il mondo facendo fotografie per le riviste geografiche e di viaggio. Più artigiano che artista, ho giocato con la materia per comporre immagini emozionali, dove le cose appaiono in divenire o in un lentissimo dissolversi."

"During my career I have crossed many ridges: between film and digital, between narration and abstraction, between research and aesthetics. Traveler and reporter, for many years I have traveled the world taking photographs for geographic and travel magazines. More craftsman than artist, I played with materials to compose emotional images, where things appear in the making or in a very slow dissolving."

Nel suo processo creativo Massimiliano Raggi sviluppa un collegamento sinergico tra funzione, eleganza formale e armonia stilistica con un occhio attento alle sfide, ormai irrinunciabili, di eco-sostenibilità ed ecocompatibilità ambientale.

Un nuovo concetto per il rivestimento delle pareti

La linea **Contract** è stata pensata per far fronte alle esigenze progettuali del settore contract e hospitality con l'obiettivo di ottenere la massima funzionalità, praticità e resa estetica nel minor tempo possibile, senza rinunciare allo stile inconfondibile delle carte da parati digitali.

Contract

A new concept for wallcovering

The **Contract** line was designed to meet the design needs of the contract and hospitality sector with the aim of obtaining maximum functionality, practicality and aesthetics in the shortest possible time, without sacrificing the unmistakable style of digital wallpapers.

Tutte le grafiche della linea Contract sono suddivise in 5 teli, realizzate in TNT vinilico goffrato, di dimensioni standard (100 x 300 cm) che vanno a comporre il disegno sulla parete, ma ogni telo può anche essere posato singolarmente perché racchiude in sé l'essenza dell'intera composizione.

Le grafiche contrassegnate con il simbolo [5/1] possono essere veramente senza fine perché gli elementi raffigurati nell'ultimo telo si integrano perfettamente con quelli rappresentati nel primo telo in un continuo susseguirsi di suggestioni capaci di impreziosire anche pareti di notevoli dimensioni.

All the graphics in the Contract Collection are divided into 5 standard size embossed vinyl TNT sheets (100 x 300 cm) that make up the design on the wall, but each sheet can also be laid individually because it embodies the essence of the entire composition.

The graphics marked with the symbol [5/1] can be truly endless because the elements depicted in the last sheet integrate perfectly with those represented in the first sheet in a continuous succession of suggestions capable of embellishing even large walls.

NATURAL BEAUTY

*Un tripudio di
meraviglie da accarezzare

WALL HYDRO XXL 3D

La nuova dimensione del design

Ogni parete è una tela bianca, pronta da plasmare seguendo i solchi più profondi della nostra personalità.

WALL HYDRO 3D nella versione XXL è l'evoluzione rigida e tridimensionale della carta da parati: grandi pannelli che, affiancandosi, vanno a comporre emozioni pronte a pervadere ogni ambiente della casa.

Elementi naturali e forme astratte prendono vita, emergendo dalla parete e facendosi materia sensibile da cogliere con la punta delle dita e accarezzare con la mente.

A wall is a blank canvas, ready to be shaped following the deepest grooves of our personality.

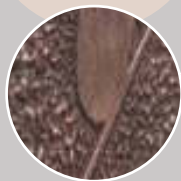

WALL HYDRO 3D XXL is the rigid and three-dimensional evolution of wallpaper: large panels which, placed side by side, compose emotions ready to invade every environment of the house.

Natural elements and abstract shapes come to life, emerging from the wall and becoming tactile detectable.

Piccole, grandi emozioni

I pannelli WALL HYDRO SMALL arredano con la grazia tipica degli antichi arabeschi ma in una chiave più moderna che asseconda le esigenze stilistiche dei nostri tempi e la flessibilità di posa.

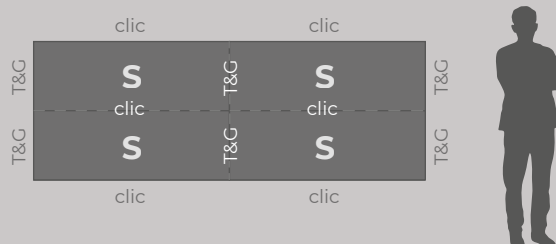

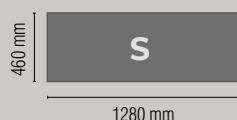

I pannelli modulari vanno a comporre una sinfonia visiva che si sviluppa a piccoli passi, in una successione orizzontale sulla parete, segnando il percorso di ricordi in cui è facile cullarsi.

La possibilità di realizzazione con effetto 3D, aggiunge una dimensione a volte inaspettata per un realismo tattile che va oltre la dimensione puramente visiva.

WALL HYDRO SMALL panels have the modern key grace of ancient arabesques, supporting the stylistic needs of our times and easy-to-lay installation.

The modular panels compose a small steps symphony, in a horizontal succession on the wall, marking the path of memories in which it is easy to pamper oneself.

The availability of 3D effect adds an unexpected dimension to a tactile realism that goes beyond the purely visual dimension.
